Westview Health Care Center COVID-19 Employee COVID-19 Screen Attestation

To keep our employees and patients safe, all Westview Health Care Center employees are asked to confirm that they are asymptomatic at the beginning of their shift or work period. By clocking in prior to each shift, you are attesting that:

I am aware that COVID-19 is a serious respiratory virus that is transmitted through exposure to respiratory fluids carrying infectious virus. I am aware of the signs and symptoms of COVID-19 which include, but is not limited to: Fever or chills, Cough, Shortness of breath or difficulty breathing, Fatigue, Muscle or body aches, Headache, New loss of taste or smell, Sore throat, Congestion or runny nose, Nausea or vomiting and Diarrhea.

I am aware of the Westview Health Care Center COVID-19 Policy and Procedure for work exclusions which states that:

- Employees that have any of the following: a fever (over 100°F), cough, shortness of breath, loss of taste or smell; or two of the following: headache, runny nose diarrhea, chills, muscle pain, sore throat, vomiting should be tested for COVID-19 prior to reporting to work. Rapid Antigen COVID-19 or PCR testing is allowed. If antigen testing is used and the result is negative, it should be repeated 48 hours after the first test. Regardless of test status employees working with any of the above symptoms should wear a well-fitting mask while symptomatic. Regardless of test status an employee with a fever or vomiting should not work until the fever and/or vomiting has resolved for 24 hours without use of medication.
- Employees that test positive for COVID-19 may not work until one of the following conditions is met:
 - Employee may return after day 7 if they have a negative Rapid COVID-19 test on day 5,6, or 7 , they have not had a fever in 24 hours, and their symptoms have improved.
 - Employee may return after day 10 if no testing is performed or testing on day 5,6, or 7 was positive, they have not had a fever in 24 hours, and their symptoms have improved.
- Employees are not required to quarantine after a known COVID-19 exposure if they are asymptomatic. Exposed employees should have a series of three Rapid AG COVID-19 tests: Immediately after learning of the exposure (but not within 24 hours of exposure), if negative, repeat the test 48 hours after first test, if negative, repeat again 48 hours after second test. Test immediately if symptoms develop.

Employees that develop symptoms during their shift should report symptoms to their direct supervisor and the infection preventionist and leave the facility.

Report COVID-19 like symptoms and COVID-19 exposures to your direct supervisor and to the Infection Preventionist: Jessica (work cell) (860)234-4855 (call or text)

I have read and understand the above statements and agree to report COVID-19 like symptoms, COVID-19 exposures, and follow listed work restrictions. I understand that by clocking in at the beginning of each shift I am attesting to the above statements.
